

A photograph of a large yellow underground mining machine, possibly a LHD loader, in a dark tunnel. A large green semi-transparent rectangle is overlaid on the left side of the image. The machine has large black tires with yellow rims and green safety railings. The background shows the rough, rocky walls of the mine.

Caterpillar 1700 Loader

CAT1700 Door

To suit Caterpillar 1700 Machines
OEM No.291-0662

Benefits include:

- Heavy duty construction
- Significant savings which takes away the need for downtime while repairing damaged doors
- Precision manufactured for fast fit up to your machine

* Part No. 5001817

Caterpillar 1700 Loader

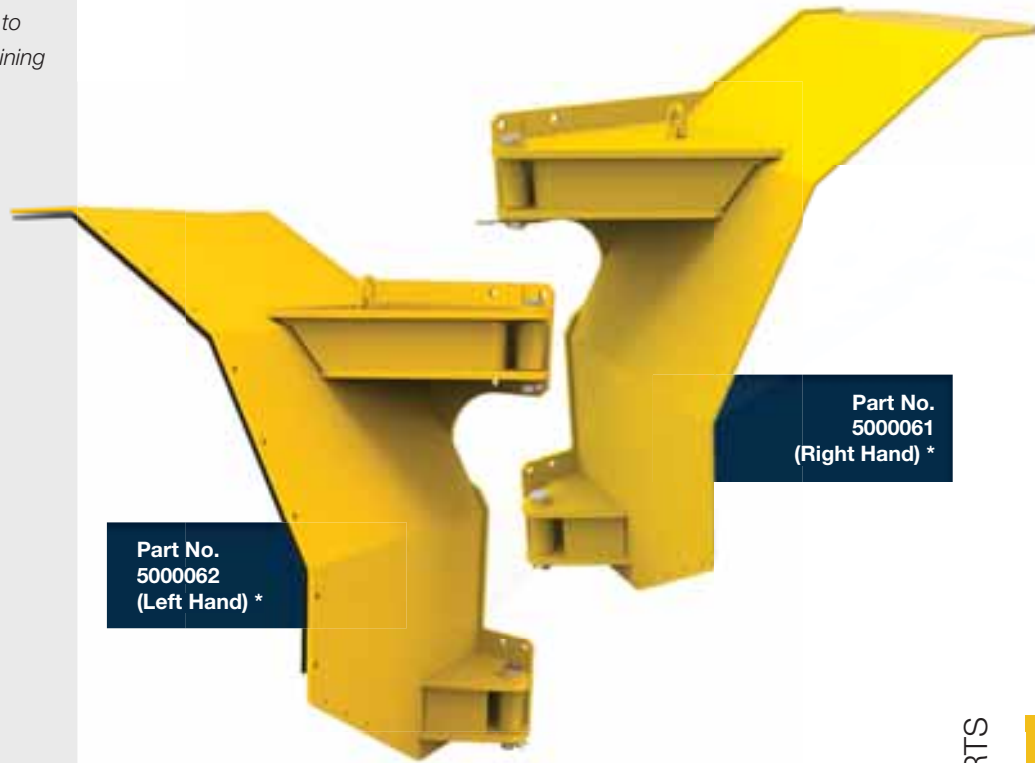

CAT1700 Folding Guards

Made to suit CAT 1700 Loaders, our fender acts as a wheel guard and is designed to withstand the harshest underground mining environments.

Benefits include:

- Heavy duty hinged folding system
- Double pin design to eliminate sagging
- No need to take off the fender when servicing behind the wheel guard
- Stainless pins with greasing points
- Patent pending

CAT R1700 Fall Arrestor Tether Kit

A solution to provide operators/ fitters with a tethering kit which they could lock onto, while erecting the handrails on the machine.

Features:

- Tether kit is pre-rated to arrest the fall of an operator
- Tether mechanism locks if the operator begins to lose balance preventing a fall
- Uses existing bolts/fitting on the roof and cab mounts and engineered and certified brackets for the retractable fall arrest tethers to attach to

* Part No. 5504908

Caterpillar 1700 Handrail Storage Rack

CAT 1700 Handrail – full set. Suits Bend-tech OEM replacement handrails. Certified and compliant with Australian Standards.

Construction: Heavy-duty steel

Forklift Slots: 

- Heavy-duty hot dip galvanised finish
- All required signage incorporated
- Rack capacity: 3 complete sets

Part No. 5504255

A large yellow Caterpillar 2900 wheel loader is shown at night, illuminated by work lights. The loader is positioned on a dirt surface, and its large bucket is raised. The machine's massive tires and robust frame are clearly visible. A semi-transparent yellow rectangular box is overlaid on the left side of the image, containing the text "Caterpillar 2900 Loader".

FULL HANDRAIL SET TO SUIT CAT LOADER 2900 - PART NO: 5001786

* NOT INCLUDED IN FULL SET

A large yellow Caterpillar AD30 off-highway truck is shown in a dark, industrial setting, possibly a mine. The truck is positioned diagonally, facing towards the left. It has a large, flatbed-style body and massive, treaded tires. The scene is dimly lit, with some light reflecting off the truck's body. A semi-transparent yellow rectangular overlay covers the left side of the image, and a dark blue triangular graphic element is at the bottom left.

Caterpillar AD30 Truck

Caterpillar AD30 Truck

Caterpillar AD30 Tray Access Platform

A safe, certified and compliant access platform designed and engineered to access the tray on the CAT AD30 Underground Dump Truck.

Construction: Heavy-duty aluminium

Features:

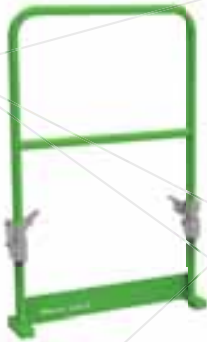

- Stairway parallel to the platform deck to reduce platform footprint
- Non-slip stairway and work area
- Handrails fully removable
- Self-closing gate at the top of the stairs

FULL HANDRAIL SET TO SUIT SANDVIK LH517i HANDRAILS - PART NO: 5600588

SANDVIK LH621 Loader

Sandvik LH621 Loader Front Access Platform

A safe, certified and compliant access platform designed and engineered to access the front end of the Sandvik LH621 Underground Loader.

Construction: Heavy-duty aluminium

Features:

- Platforms allow easy access from the bucket right to the cab
- Left hand and Right hand are symmetrical
- Double height handrails at tyre points to prevent falls
- Flip up grating sections on deck

Part No. 5501967

SANDVIK LH621 Loader

B

Sandvik LH621 Rear Access Platform

Designed and engineered to safely and efficiently access the rear section of a Sandvik LH621 Loader for routine maintenance and repairs alike.

Construction: Heavy-duty aluminium

Features:

- Certified and compliant with Australian Standards
- Provides safe, efficient and easy access to the rear of machine
- Comes as a left and right handed set

Part No. 5001962

Sandvik LH621 Fall Arrestor Tether Kit

A solution to provide operators/ fitters with a tethering kit which they could lock onto, while erecting the handrails on the machine.

Features:

- Tether kit is pre-rated to arrest the fall of an operator
- Tether mechanism locks if the operator begins to lose balance preventing a fall
- Uses existing bolts/fitting on the roof and cab mounts and engineered and certified brackets for the retractable fall arrest tethers to attach to

Part No. 5504910

Sandvik LH621 Handrail Storage Rack

A designed and engineered storage solution to hold a full set of Sandvik LH621 handrails. Certified and compliant with Australian Standards.

Construction: Heavy-duty steel

Forklift Slots:

- Heavy-duty hot dip galvanised finish
- All required signage incorporated
- Rack capacity: 3 complete sets

VOLVO
L120F

Volvo L120F Access Ladder and Handrails

An OEM replacement access ladder and step designed and engineered to provide safe entry to the Volvo L120F

Construction: Heavy-duty aluminium

Features:

- Non-slip checkerplate treads
- Full bolt-on mid-folding design
- Hi-spec surface treatment finish in Volvo yellow over a primary zinc coating for enhanced protection

Part No. 5504998

Volvo L120F Mudguard Mounted Handrails

A comprehensive set of handrails designed and engineered to provide fall protection on the Volvo L120F wheel loader.

Construction: Heavy-duty aluminium

Features:

- Full bolt-on mid-folding design
- Hi-spec surface treatment finish in Volvo yellow over a primary zinc coating for enhanced protection

Part No. 5504271

VOLVO L120F

Volvo L120F Windscreen Changeout Platform

An engineered and certified solution which provides safe and efficient access to the windscreen on the Volvo L120F wheel loader. Ideal for windscreen changeout, maintenance or inspection.

Construction: Heavy-duty aluminium

WLL: 150kg

Height: 2340mm

Length: 1900mm

Width: 650mm

Overall width: 995mm

- LH and RH platform configuration
- Non-slip serrated grating for deck and stair treads
- Non-slip nosings
- High quality German made castor wheels
- Latch system included to attach two platforms to each other
- Self-closing gates

Part No. 5504108

Volvo L120F Access Platform

A safe, certified and compliant access platform designed and engineered for the Volvo L120F Wheel Loader.

Construction: Heavy-duty aluminium

- Left and right-hand platforms for easy access on both sides of the loader
- Non-slip stairway and work area
- Safety handrails
- Heavy-duty caster wheels
- Overhangs for easy access
- Easy to move around the workshop while the loader is serviced

Part No. 5501968

The background image shows an industrial workshop with several large, orange-painted metal racks. These racks are holding various long, cylindrical components, likely pipes or shafts, which are also painted orange. Some components are black. The racks are supported by yellow metal brackets. In the background, there is a corrugated metal wall. A semi-transparent green rectangular box is overlaid on the left side of the image, containing the text 'Workshop Equipment'.

Workshop Equipment

Workshop Equipment

2 Tonne Trestle Stand 1000MM (L) x 900MM (H)

For general workshop duties such as plate cutting and supporting machine or engineering components up to the weight of 2 tonne (distributed evenly).

Construction: Heavy-duty steel

- Replaceable top section
- Stocked off-the-shelf, available for immediate delivery

Part No. 5001747

2 Tonne Trestle 1000mm (L) x 500mm (H)

Part No. 5503752

5 Tonne Trestle Stand 1000MM (L) x 900MM (H)

For general workshop duties such as plate cutting and supporting machine or engineering components up to the weight of 5 tonne (distributed evenly).

Construction: Heavy-duty steel

Forklift Slots:	■
WLL:	400Kg per level

Features:

- Certified and engineered to Australian Standards
- Can be used for storage of steel and piping sections
- Free standing, eliminating the need to bolt to the ground
- Forklift Slots for ease of transport
- Finished in Safety Yellow

Part No. 5502089

UNDERGROUND MACHINE PARTS

BEND-TECH

Workshop Equipment

E-Hub Efficiency Work Station Mini

The E-Hub Mini is a mobile workstation that allows an operation to harness efficiency and boost safety to the workshop floor.

Features:

- 25-inch screen included
- Small whiteboard on front
- Flip-up whiteboard at rear
- 3 x heavy duty document clips
- Transportable with handles
- Adequate storage shelving
- Storage for Tags
- Robust pipe surrounds
- Powder-coated steel cabinet
- Dust proof cabinets and housing
- Large lockable castors
- Plug and play

Saves on lost productivity, Reduces Risk of injury, and Allows Improved Control of the workshop.

Part No. 5500866

Workshop Whiteboard Benches

Our whiteboard workbench is designed to encourage workshop efficiency and collaboration. Incorporating a large workbench, storage shelving and whiteboard provides your team with a base to work, delegate and organise.

Features:

- Heavy duty mine specified construction
- Heavy duty castors for easy mobility
- Customisable for your specifications
- Large 1450mm whiteboard

Part No. 5001812

General Purpose Work Stand 10 Tonne 1020mm (H)

Our General Purpose Work Stand is engineered and certified to a safe working load of 10 tonne at 1020mm high. This product includes forklift lifting slots for ease of mobility.

Construction: Heavy Duty Steel

Forklift Slots: 

SWL: 10 Tonne

Features:

- Engineered and certified

Part No. 5414124

General Purpose Adjustable Stand 10 Tonne

Engineered and certified to a safe working load of 10 tonne from 800mm-1400mm high. Fitted with forklift slots for ease of transport.

Construction: Heavy Duty Steel

Forklift Slots: 

WLL: 10 Tonne

Features:

- Pin-lock adjusting system
- 100mm increments
- Lifting lugs on top section to remove manual handling risks

Part No. 5503166

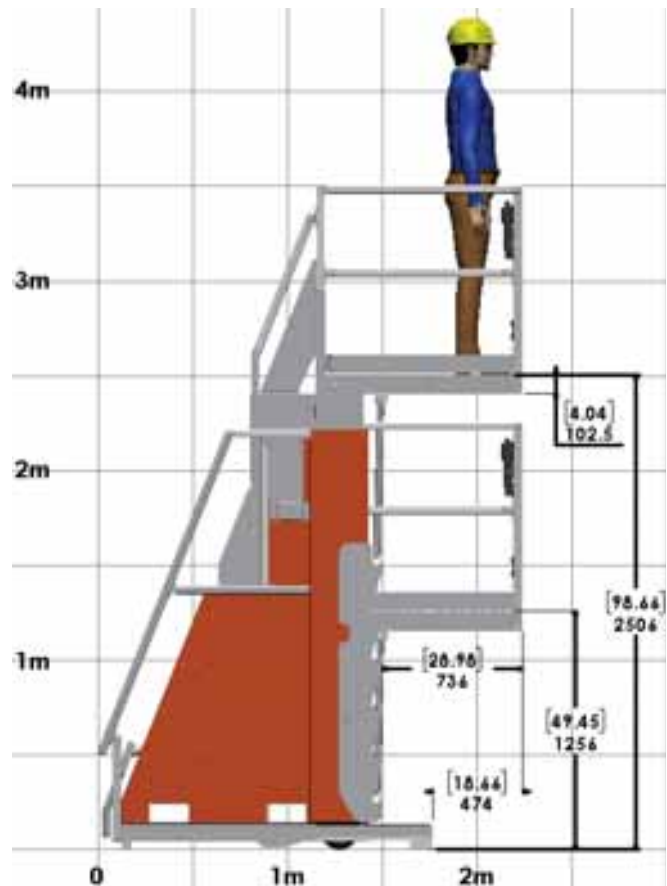

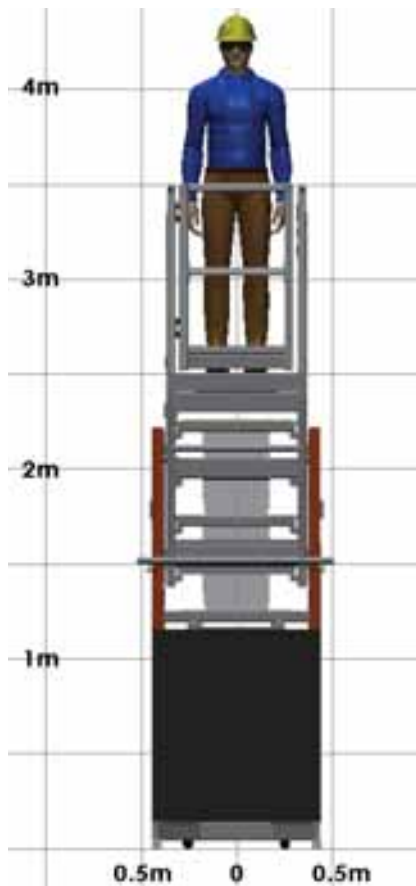

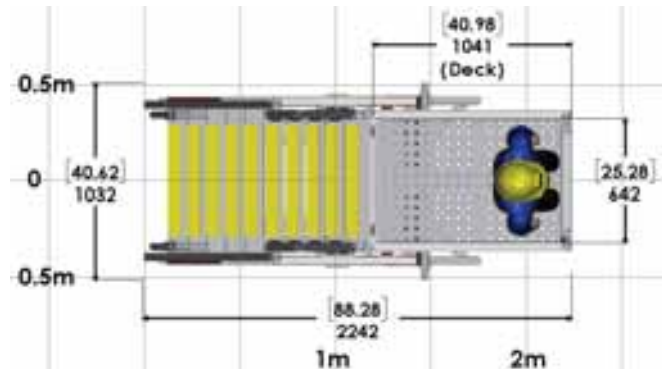

Monkey MX21 Range

Monkey MX21 Specifications

“ Making maintenance on-site safe, efficient and easy ”

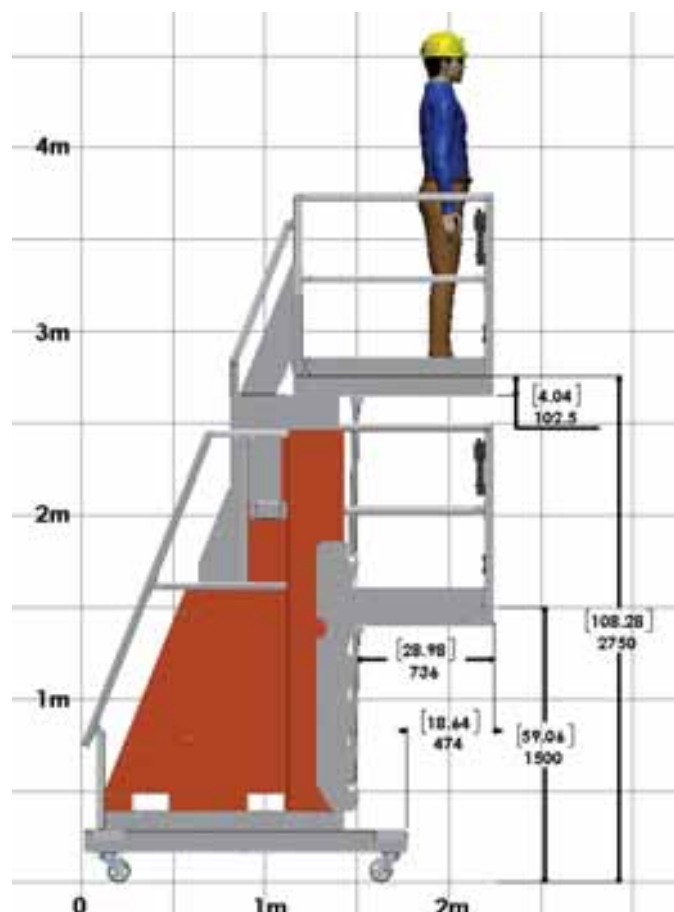

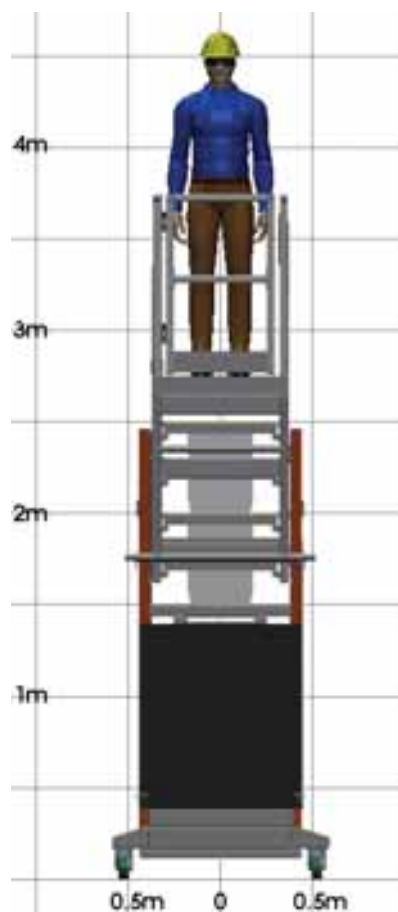

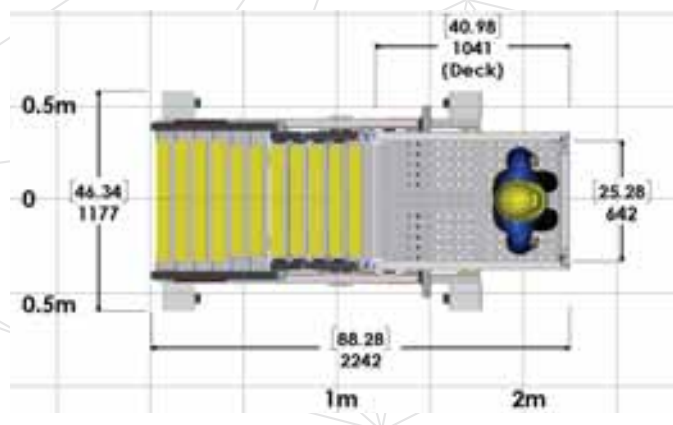

The Monkey MX21 units have been tested and confirmed to meet or exceed the strength, stability and all other applicable requirements for the following standards:

- ANSI-ASC A14.7-2011 (USA)
- CSA Z11-12 (Canada)
- AS/NZS 1576.1 (Australia and New Zealand)

Platform Height Range	1255mm	49in
	1505mm	59in
	1755mm	69in
	2005mm	79in
	2255mm	89in
	2505mm	99in
Reach Height from	3255mm to 4505mm	128in to 177in
WLL - Working Load Limit	250kg	551lb
Approximate Unit Tare Weight	230kg	507lb

Monkey MX21 + Go Base Specifications

“ Making maintenance on-site safe, efficient and easy ”

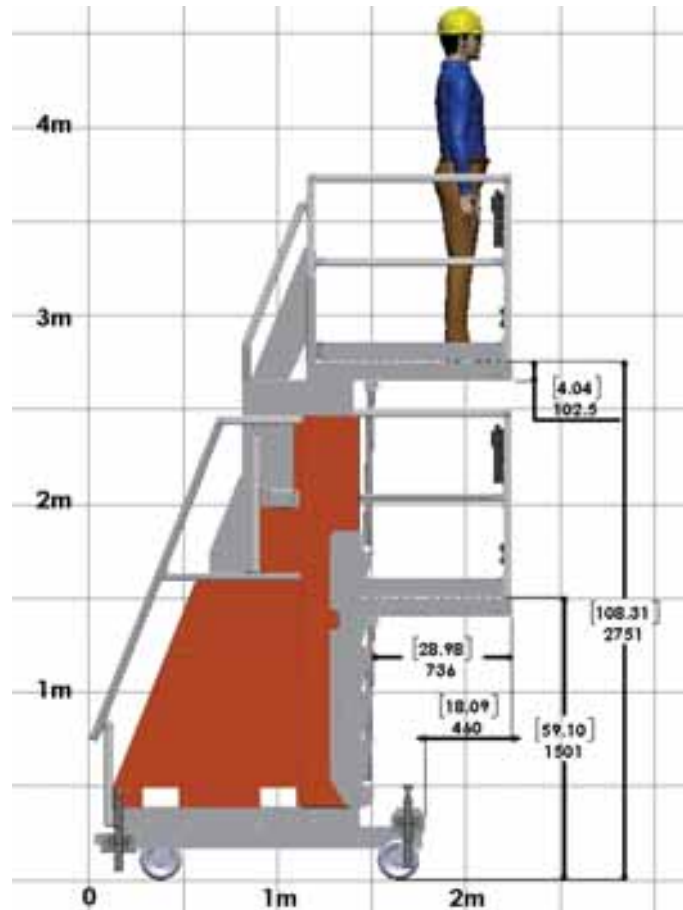

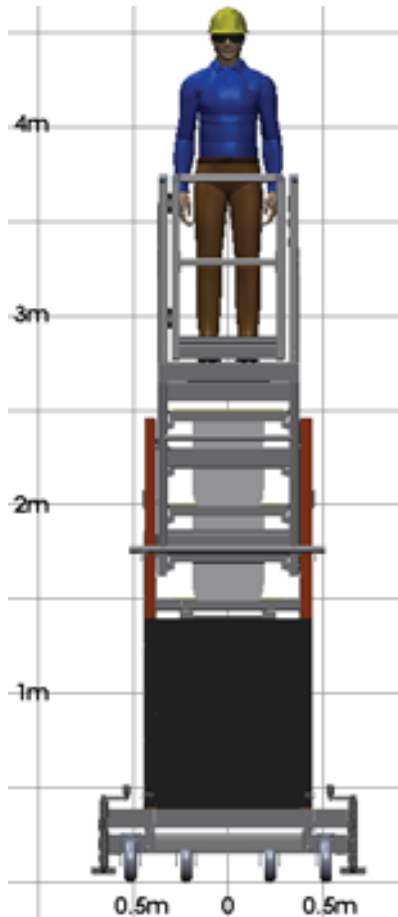

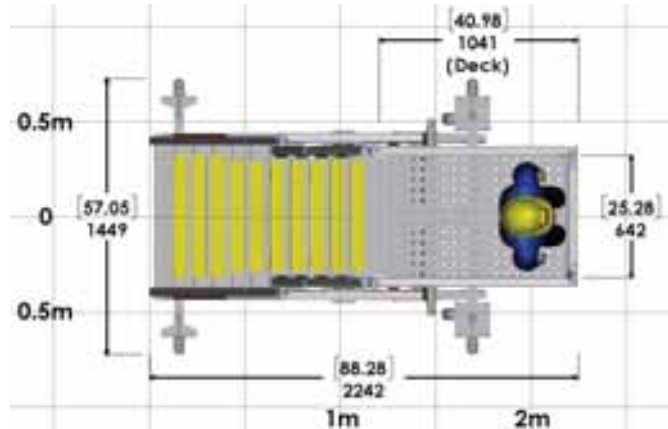

The Monkey MX21 units have been tested and confirmed to meet or exceed the strength, stability and all other applicable requirements for the following standards:

- ANSI-ASC A14.7-2011 (USA)
- CSA Z11-12 (Canada)
- AS/NZS 1576.1 (Australia and New Zealand)

Platform Height Range	1500mm	59in
	1750mm	69in
	2000mm	79in
	2250mm	89in
	2500mm	98in
	2750mm	108in
Reach Height from	3500mm to 4750mm	138in to 187in
WLL - Working Load Limit	250kg	551lb

Monkey MX21 + All Terrain Specifications

“ Making maintenance on-site safe, efficient and easy ”

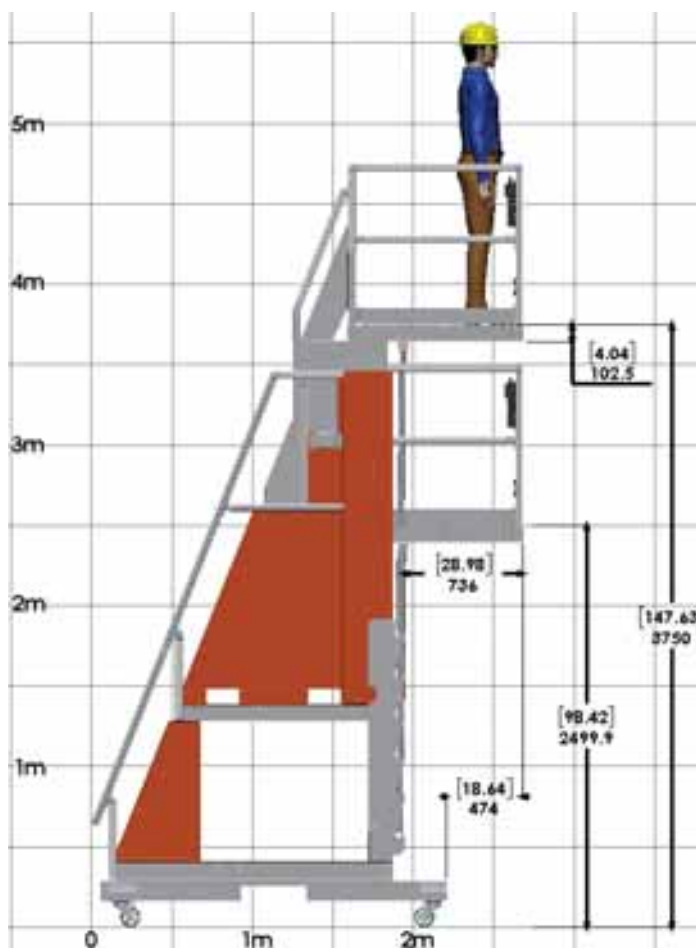

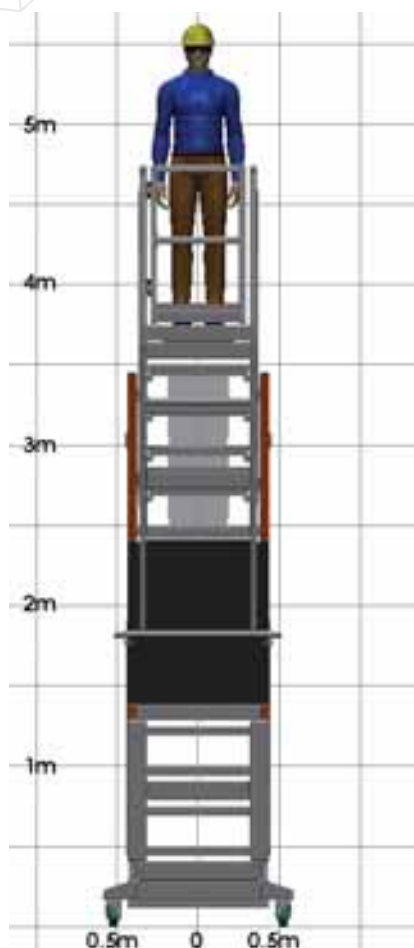

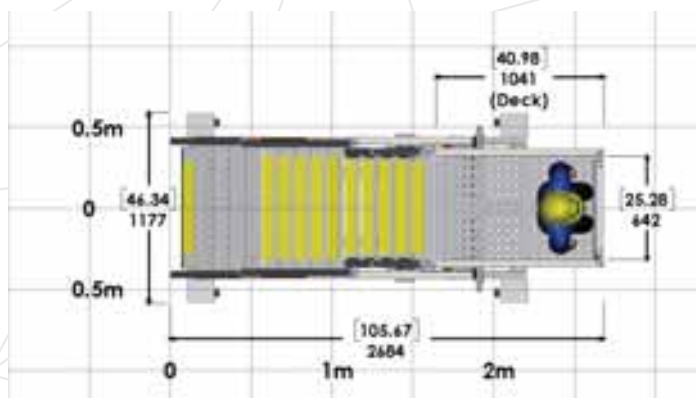

The Monkey MX21 units have been tested and confirmed to meet or exceed the strength, stability and all other applicable requirements for the following standards:

- ANSI-ASC A14.7-2011 (USA)
- CSA Z11-12 (Canada)
- AS/NZS 1576.1 (Australia and New Zealand)

Platform Height Range	1500mm	59in
	1750mm	69in
	2000mm	79in
	2250mm	89in
	2500mm	98in
	2750mm	108in
Reach Height from	3500mm to 4750mm	138in to 187in
WLL - Working Load Limit	250kg	551lb

Monkey MX21 + 4 Step Specifications

“ Making maintenance on-site safe, efficient and easy ”

The Monkey MX21 units have been tested and confirmed to meet or exceed the strength, stability and all other applicable requirements for the following standards:

- ANSI-ASC A14.7-2011 (USA)
- CSA Z11-12 (Canada)
- AS/NZS 1576.1 (Australia and New Zealand)

Platform Height Range	2500mm	98in
	2750mm	108in
	3000mm	118in
	3250mm	128in
	3500mm	138in
	3750mm	148in
Reach Height from	4500mm to 5750mm	177in to 226in
WLL - Working Load Limit	250kg	551lb

NIMBLE AGILE QUICK!

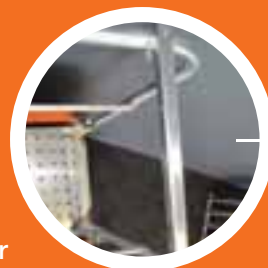

The VRS Squirrel Series brings the safety and efficiency of the VRS platform series, right down to the smaller tasks in building and maintenance in many industries.

It has excellent manoeuvrability and is fully height adjustable, which has made it the platform of choice for tradesmen on building sites, right through to maintenance workers in oil refineries.

Model No. VRSQ-14	
Deck Height from	720mm to 1440mm
Overall Width (flap feet out)	776mm
Overall Width (flap feet in)	644mm
Overall Length	1090mm
Platform Width	510mm
Platform Length	565mm

Model No. VRSQ-17 (with GO Base)	
Deck Height from	950mm to 1600mm
Overall Width	1050mm
Overall Length	1200mm
Platform Width	510mm
Platform Length	565mm

- 1 Safety bar at the rear of the platform stays out of the way for climbing on or off the deck and clips on easily behind the user

- 2 Easy pull trigger rod gives a positive lock at each of the four deck heights

- 3 Easy loading with strong 'tie-down' points

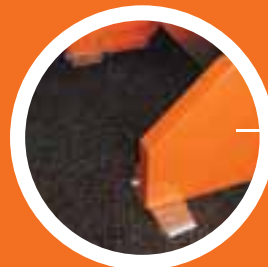

- 4 Quick to shift around the site with the integral carry handles.

- 5 Very Light and very strong thanks to the effective design and the predominantly aluminium structure.

- 6 A unique 'flip feet' provide extra stability when the deck is in use, but flip conveniently out of the way when you need to get through a narrow gap.

- 7 Simple to move just tilt until wheels engage and then push around

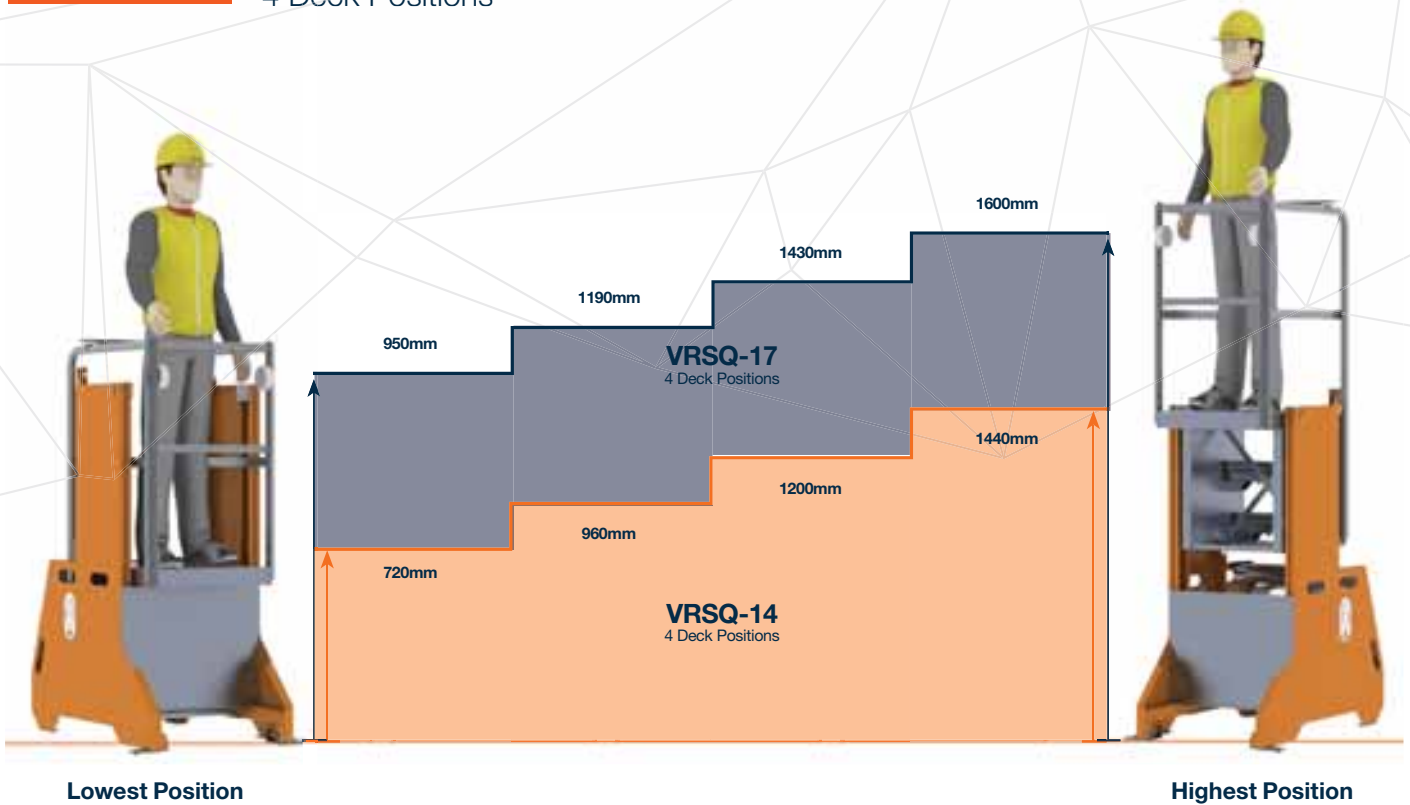

VRSQ-14 and VRSQ-17

Height Adjustable Platforms

4 Deck Positions

The VRS Squirrel with GO Base enables the operator to wheel the platform on all 4 wheels.

**“SAFE,
EFFICIENT
ACCESS
AT ALL
LEVELS”**
